

NOVEMBER PRODUCTS HIGHLIGHTS

Audio Selector

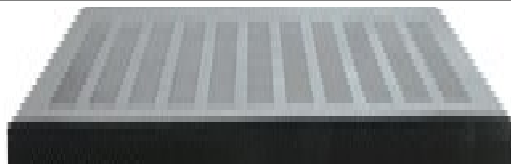

Our Audio Selector will turn your existing amplifier into a basic multizone system. This unit has independent volume control for 4 zones with impedance matching and power protection. Available with 110 V power (special order). Compatible with your existing amplifier and speakers.

iPod Docks

The In-Wall Docking System allows an iPod or iPod touch to become part of your yacht entertainment network and seamlessly integrate into an iSky system. The docking station provides charging, local audio distribution, and direct control.

Audio Amp

We can supply high quality Niles amplifier with 220 or 110 VAC power.

- Fully Discrete, High-current Stereo Amplifier
- 2 X 75W RMS/channel Into 8 Ohms, .05% THD
- 2 X 100W RMS/channel Into 4 Ohms, .08% THD
- Stable Into Low-impedance Loads (2.66 Ohms)
- DC, Short-circuit, And Overload Protection
- Gold-plated RCA Audio Input Jacks
- Gold-plated RCA Cascade Output Jacks
- Gold-plated 5-way Binding Posts

Desk Dock

This Dock saves your valuable desk space with an easy install right into it, through a 3-inch circular hole. You can now seamlessly charge and play your iPod as you sync it to your computer. A stereo-output jack on the Dock lets you listen to your music through your stereo, powered speakers, or headphones. Connect this dock to our iSky system and get rid of these messy cables.
